PROFESSIONAL SUMMARY

Full-stack developer with 2 years shipping production React.js/Node.js applications for US and Malaysia-based clients across enterprise film distribution, HR, and sports-tech platforms. Built and hardened 25+ RESTful APIs with JWT/RBAC across multiple multi-tenant platforms, cut frontend defects 20% by introducing Redux Toolkit, and lifted deployment speed 40% through GitHub Actions CI/CD. Comfortable owning a feature end to end — schema design through deployment — and integrating third-party services (QuickBooks, DocuSign, FedEx, barcode printing).

SKILLS

Frontend: React.js, React 19, Redux Toolkit, React Hooks, TypeScript, JavaScript (ES6+), HTML5, CSS3, Formik, Tailwind CSS, AG Grid, Vite, Module Federation

Backend: Node.js, Express.js, Python, FastAPI, REST APIs, GraphQL, JWT Authentication, RBAC, OAuth 2.0, Business Logic, Data Validation

Databases: PostgreSQL, MySQL, SQLite, JSONB — Query Optimization, Indexing, Schema Design, CRUD Operations

PROFESSIONAL EXPERIENCE

Software Developer | Neural Schema Infotech Pvt Ltd Jul 2024 – Present

- Shipped 4+ enterprise applications in React.js, Node.js, Express.js, PostgreSQL, and MySQL for clients across the United States and Malaysia.
- Designed 25+ secure REST endpoints with JWT authentication and role-based access control, powering multiple multi-tenant platforms.
- Cut frontend defects 20% by introducing Redux Toolkit across reusable components, improving state consistency and QA turnaround.
- Raised concurrent-user capacity 30% by optimizing 25+ SQL queries and indexing strategies.
- Reduced deployment time 40% by building GitHub Actions CI/CD pipelines and removing manual release steps.

KEY PROJECTS

HFC (Hollywood Film Company) — *React.js, TypeScript, Node.js, PostgreSQL, REST APIs, Tailwind CSS, AG Grid*

- Enterprise platform for film distribution, inventory, fulfillment, work orders, and theatre operations for a US-based production company, tracking 5,000+ production assets.
- Built REST APIs and business logic for asset availability, booking validation, inventory allocation, and logistics; owned production troubleshooting and performance optimization.

CineBridge — *React.js, TypeScript, Node.js, PostgreSQL, REST APIs, QuickBooks API, DocuSign API, FedEx API, OAuth 2.0*

- Multi-tenant cinema operations platform for requests, bookings, inventory allocation, scheduling, and fulfillment, with role-based access control across tenant organizations.
- Developed transactional APIs and PostgreSQL workflows for booking/inventory conflict resolution; integrated QuickBooks, DocuSign, FedEx, and Zebra barcode printing services.

RAK Sportz — *Node.js, MySQL, REST APIs, SQL*

- Backend services for a sports/tournament management application covering players, coaches, academies, and teams.
- Implemented REST APIs, CRUD operations, and data validation; tuned database queries and indexing to improve response times and reliability under concurrent load.

OneConnect HRMS — *React 19, TypeScript, Python, FastAPI, PostgreSQL, Vite, Module Federation*

- Modular enterprise HRMS with independent HR domains (Attendance, Timesheet, Payroll, Recruitment) built on React 19 with Vite Module Federation for scalable frontend architecture.
- Owned the Timesheet module plus Attendance and Authentication: built React/TypeScript UIs, FastAPI REST APIs, timesheet workflows, authentication, validations, and email notifications.

Hyperloop — *React, Redux Toolkit, Real-time APIs*

- Built a reusable React component library and real-time trading integrations for portfolio and transaction tracking.
